

Guide to Puzzle Hunts

Welcome, Puzzlers!

Each team will receive a packet with 9 puzzles. The first puzzle is the Meta.

The answers to the other 8 puzzles are parts of the Meta puzzle. You must solve the set of 8 answers as if it were a puzzle to get the complete, overall answer to this puzzle hunt.

In each puzzle, all parts of the puzzle text are important—and the titles normally provide a vital hint, too! The internet, computers, AI, etc. are at your disposal, and you are expected to use these tools as you solve the puzzles.

If you're ever stuck, get a hint! You can use your SIMC Discord text channel (accessible here: <https://tinyurl.com/simcdiscord>) to ask SIMC any questions you might have about the puzzle, or flag down a nearby SIMC member to ask them for hints.

We hope you have a good time, and happy solving!
